## No. 1 PICTURE

**National Box Office Digest** acclaims "A STAR IS BORN" as the MIGHTY No. 1 BOX OFFICE PICTURE OF THE YEAR for achieving the highest percentage—168% of normal!

**Hollywood Reporter** poll of 4,856 exhibitors hails "A STAR IS BORN" as the No. 1 MONEY-MAKING PICTURE for piling up the largest grosses of any production and setting 40% more house records than any other picture!

## No. 1 PRODUCER

**National Box Office Digest** names DAVID O. SELZNICK No. 1 WINNER of the top independent producer rating for his grand over-all average of 129% during the past three-year period!

**Fame** (1938) ranks DAVID O. SELZNICK as the top money producer for the seven-year period since 1931!

# THE DIGEST ANNUAL

Published  
May 1st, 1938

## WE THANK YOU...

Herewith we present the first issue of THE DIGEST ANNUAL.

We are properly humble, but modestly proud.

We are humble because we are young in a forest where so many elders have trod before. We are just a mite conscious of youthful pride.

We sincerely believe we have reason for that pride.

There has never been anything in the industry comparable to THE DIGEST ANNUAL. It has not been concocted as a birthday or good will present to the publishers on the part of the generous folk who make up this glorious motion picture industry. It has been so devised that arbitrarily it has not even been possible—even if such a thing were desired—to use it as a velvet-hand form of advertising blackmail.

THE DIGEST ANNUAL is plainly, on its face and in its facts, a service publication. The fact that so many of our followers in the industry have seen fit to aid with advertising representation is a heart-warming thought. But also, the fact that they had nothing to gain or lose whether they saw fit to help or to turn a cold shoulder is even more encouraging in those dark hours of the night when we all need to renew our faith in human nature.

\* \* \*

The creators of the industry, producers, associate producers, directors, writers, player personalities, who have helped toward the success of THE DIGEST ANNUAL have given themselves a stronger vote of SINCERITY than any words we might use.

Because the figures as shown in THE DIGEST ANNUAL are the figures. There has been no attempt to change them, switch them, nor to gently shade them. There the figures are—and on the figures we stand or fall.

And let it be put ON THE RECORD right now that those individuals who tried to affect our box office figures were so few that they did not, in the slightest way, affect our appetite for dinner on any evening.

While we are putting that fact on the record, let it also be stated that most of these people who make motion pictures are willing to FACE THE FACTS AND THE FIGURES.

We hope to do better next year, and we know we will. We spent considerable money on clerical help and statistical research this year—we expect to spend more next year.

\* \* \*

We will make a promise to the industry right now: we will never publish, nor even attempt to publish, a special edition that consists of a lot of hooey on any convenient subject from Lincoln's birthday to George Washington's wedding breakfast.

We will never ask Hollywood to give us advertising just because it happens to be Thanksgiving Day or because it is "Be Kind to Animals" Week.

\* \* \*

And now for the most important thing of all. Our exhibitor readers. In the end, THE DIGEST lives or dies by that important support it receives from the big-money picture buyers of the country. The day that we lose their faith you have the privilege of coming around without obstruction and wrapping up THE DIGEST.

To these exhibitor readers we renew our pledge as it is made in the weekly DIGEST: that our figures are presented as the figures add up. We spend money, time, and effort to see that they are correct. We have a staff that is not a group of high-brow doodlebugs but experienced and trained motion picture men. We will stick to our guns.

\* \* \*

It is nice to say things such as this in a week that is really a week of glorious success for a young publication

Maybe that is the time to say such things. Because then they come from the heart.

We are happy with what you have done for THE DIGEST ANNUAL; we hope you are happy with what we have done for you. And for every brick you wish to throw our way for some disagreement over the figures in some particular department we wish to state right now, we will give a receipt.

We can take it. And if you wish to play ball with us on the same level we will continue to give and take.

Give and Take. That isn't a bad industrial motto, after all.

ROBERT E. WELSH.

# BOX OFFICE FIGURES!

*This Supplement to NATIONAL BOX OFFICE DIGEST is the first authentic box office record ever to be published on the motion picture industry.*

Norman Webb, who has compiled all of the box office statistics and figures for THE DIGEST ANNUAL, is a man of long experience in the picture business. He is thoroughly acquainted with all phases of production, distribution, and exhibition. For the past twelve years he has made a particular study of box office analysis, during which time he has served as a box office statistician for the Paramount-Publix home office, and for the Paramount, M-G-M, and First National studios. Besides having spent seven years in the various studios, he was also an independent exhibitor for eight years. So I believe he is exceptionally capable of preparing box office statistics, that are authentic, intelligently analyzed, and impartially presented.

(Signed)

*Robert Z. Walsh*

The box office statistics published in the following pages have been prepared by myself and staff, from theater reports received from exhibitors—both chain and independent—film exchanges, executives of American producers and distributors, and other reliable sources. Naturally many of our sources of information are secretive, while other information is from actually published facts and figures.

I have, to the best of my ability, taken the gross figures from the various exhibitors and changed them into percentages, thus determining the actual box office value of each individual picture, as well as the various producers, directors, writers, and stars connected with the making of these pictures. We have checked our records with various theater circuits and also with many members of independent theater organizations, and according to the information we receive, we have found that our statistics are from 95 to 98% accurate. We receive box office figures from first-run key-city theaters, grossing as high as \$120,000 a week, as well as from small neighborhood houses grossing as little as \$250 a week.

In this big industry, naturally at times there have been people who argued with us about our figures and asked us to change them. We have even been threatened that we would be barred from the industry if we did not do so. However, at all times we have used our own judgment, and believe that all of the facts and figures contained in this volume are as nearly correct, and as fair, as it is humanly possible to make them.

(Signed)

*Norman Webb*

**N.B.** In this issue we are publishing the box office ratings on all pictures released during the past two years (1936-37) and also the box office ratings on the pictures that have been released during the first two or three months of this year—1938. Accordingly, the ratings on various executives, producers, directors, stars, etc., are based on their past two year record. Practically every producer, director and star has at some time or other had a big hit, and at other times has made pictures which were not so good—maybe even a flop. But over the past two year period, practically everybody of importance in the industry has had at least four or five releases, and so consequently in giving the box office figures for the past two years, we believe that a fairer and more accurate rating is given to each individual.

# FINANCIAL STATEMENT

## 1937 Net Earnings of National Film Producer-Distributors

	Profit or Loss
1. M-G-M (Loews, Inc.).....	\$14,426,062
2. 20th Century-Fox .....	8,617,114
3. Paramount* .....	6,045,103
4. Warner Brothers* .....	5,876,183
5. R. K. O.* .....	1,821,166
6. Columbia .....	1,317,371
7. Gaumont British .....	976,065
8. Universal .....	-1,084,999
9. Grand National .....	- 636,202
10. Monogram .....	- 239,076
United Artists (Private Corp.).....	No statement issued
Republic (Private Corp.).....	No statement issued

**Editor's Note:**

Where financial statements for the past fiscal year ending December 31, 1937, were not available, then the last financial statement issued for a past 12 months' period, was used instead.

\*The net earnings of M-G-M, Paramount, Warner Brothers, and R. K. O. also includes 100% of the theatre incomes of their affiliated circuits.

87½% of the 20th Century-Fox earnings were derived from production, as that company has much smaller theatre holdings; (40% of Wesco and National Theaters). Consequently, practically \$7,500,000 of the Fox profit was made from the production end; and this is the reason that DARRYL F. ZANUCK is so highly regarded in film circles.

## EXPLANATION CHART

The percentage after each title represents the gross business that each picture has averaged in American Theaters—some 100% over normal business, and other 55% below normal business.

The pictures listed in these four groups, are classified as to negative costs only, and NOT according to how they are sold to exhibitors.

## EXPLANATION

The percentage after each title represents the box office business that each picture has averaged in American Theatres — some 60% over normal business, and others 40% below normal.

The pictures listed in these four groups are classified as to negative cost only, and NOT according to how they are sold to exhibitors.

## EXPLANATION

The percentage after each title represents the box office business that each picture has averaged in American Theaters—some 145% over normal business, and others 60% below normal.

The pictures listed in these four groups are classified as to negative cost only, and NOT according to how they are sold to exhibitors.

# HOW %'S ARE FIGURED

From time, to time, during the past year, we have frequently been asked, how percentages on pictures are figured in our DIGEST. True enough, many other film trade papers have quoted box office figures—but practically always in dollars, very seldom in per cent; and, furthermore, when percentages are given, they are generally anything but correct.

The percentages used in our DIGEST are based on actual box office figures received from exhibitors all over the nation. Naturally, 100% is always considered the normal average. In other words, if a theater whose average is \$10,000 weekly, grosses \$7,500 on a given picture, then that picture draws a 75% rating on that particular run. On the other hand, if another picture in that same theater grosses \$15,000 it is given a 150% rating on that particular run. In other words, in the first case mentioned, the picture would be running 25% below normal while in the second instance, the picture would be run-

ning 50% above normal business, etc. The figures from all types of houses, both large and small, throughout the country are then averaged out, with the per cent after the name of the picture, being the actual per cent of business, that a certain picture has played to.

In order to give our readers a more concrete example of how percentages are figured out, we are utilizing this page, to give a complete "break-down" on a given picture. For this example, we are using the first box office figures on the 20th Century-Fox production—"IN OLD CHICAGO," which, (with the exception of the cartoon "SNOW WHITE") is the biggest box office feature of the past two years. While this picture was Road-Showed in several key cities, it broke for general release during the latter part of the Lenten Season. We mention this because Road-Show figures are never taken into consideration with our theater averages.

## BOX OFFICE RETURNS ON "IN OLD CHICAGO"

In Seattle, Washington, this picture opened at the Fifth Avenue Theater (average weekly gross is \$6,200). It grossed \$10,997 on its first week, which is equal to 177 $\frac{1}{3}$ %—that is, 77 $\frac{1}{3}$ % above normal business.

$$\frac{177\frac{1}{3}\%}{\$6,200 \mid \$10,997}$$

## OTHER KEY CITY RUNS, WITH THEATER GROSSES AND PER CENTS, ARE LISTED BELOW

CITY	THEATER	WEEK'S GROSS	%	CITY	THEATER	WEEK'S GROSS	%
Seattle, Wash.	Fifth Avenue	\$10,997	177	Rochester, N. Y.	Palace	16,455	183

7 CHAIN THEATER CIRCUIT REPORTS SHOW AN AVERAGE OF.....			194
232 INDEPENDENT THEATER REPORTS SHOW AN AVERAGE OF.....			169
PRESENT BOX OFFICE VALUE OF "IN OLD CHICAGO".....	3	546	182%

**N. B.**—It might be of interest to our readers to know that a picture that runs 82% above normal business at the box office, will probably gross in the neighborhood of \$3,500,000 in the world market. Production cost of "In Old Chicago" was slightly in excess of \$1,500,000.—The Editor.

All 1936-37 Releases of these executives are to be found on the following pages

# BOX OFFICE RATINGS

On the following pages are listed the 1936-37 box office ratings on the following:

## **Executives and Producers**

### **Directors**

### **Stars and Featured Players**

### **Writers (Original and Screenplay)**

After the name of each individual is the studio they are associated with as well as the number of releases for which they were responsible, and finally their batting average in per cent.

#### **PRODUCERS — 4 DIVISIONS**

The first box office ratings are those of the executives and producers—the men who are at the helm of production—truly the men who are responsible for the success or failure of the motion picture.

We have classified the executives and producers into four different groups, as these men perform four different duties:

1st—**General Executive Producers**, the first and by far most important group. These are the men who have complete charge of production in their respective studios. On the left hand page we find a list of 14 executive producers, six of whom are at present inactive, while the other eight are now in complete charge of production in the various studios. We find Mr. Mayer (aided by Mannix and Katz) in charge of M-G-M production, at the top of the list. Next we find Darryl Zanuck solely in charge of production for 20th Century-Fox; then William LeBaron; Jack Warner, etc.

2nd—**General "B" Producers**. These are the men who are in charge of the so-called "B" or program pictures for the major studios. In this list are 8 men, 6 of whom are still in charge of the "B" pictures for major studios, while the other two, Lucien Hubbard and A. M. Botsford, are presently engaged in other capacities at the Paramount Studio; Mr. Hubbard being a Unit Producer, while Mr. Botsford is now executive assistant to Mr. LeBaron.

3rd—**Unit Producers**. In this classification we find a list of 136 producers who have charge of their own individual units. In other words, these producers have charge of so many pictures a year, BUT UNDER THE SUPERVISION OF THE EXECUTIVE PRODUCER in charge of the studio.

4th—**Independent Producers**. In this classification are 62 men who produce their pictures independently, ENTIRELY ON THEIR OWN, but release through major distributing companies.

As stated above, the list of EXECUTIVE PRODUCERS is found on the left hand page, while their credits are on the following pages. The credits and releases of the GENERAL "B" PRODUCERS, the UNIT PRODUCERS, and the INDEPENDENT PRODUCERS are all to be found on the following pages.

*Hal B. Wallis*, executive assistant to Jack Warner, is in a rather unique position. As he does not fall in any of the four classifications listed above, we have to list Mr. Wallis separately. Mr. Wallis, working directly under Jack Warner, is in charge of all the "A" product on that lot—a position not enjoyed by any other individual in the business. But since the "B" product for Warners is handled by Bryan Foy, Mr. Wallis is an executive producer, but still not a general executive producer.

# FOREIGN MADE PICTURES --- RELEASED IN THE U. S. A.

We thought it might be of interest to our readers to know how foreign made pictures—mostly English—have fared in the United States. The majority of these foreign releases have been produced by United Artists and Gaumont British, although quite a few other features were made by various independent English companies and released through American distributors.

In trying to compete with the American market, English pro-

ducers have put considerable money in a number of these pictures—several of them costing in excess of \$1,000,000. Naturally, the majority of these pictures did much better in the British Dominions, for which they were originally intended. Below we are listing foreign releases for the past three years, and the per cent of business they have played to in the average American theater.

## 1936 FOREIGN RELEASES

1. "Mr. Hobo".....	GB... 102	10. "Seven Sinners".....	GB... 81	19. "Amateur Gentleman".....	UA... 71

# STARS — VALUE UNDETERMINED

Below are listed a group of stars and featured players, some of whom have been in the industry for a short time, and others for over 15 years. The reason why the following are listed as "Value Undetermined" is because they have not had a sufficient number of important releases to definitely determine their PRESENT box office value.

In this list are found many important names to whom we would like to establish a box office rating; but rather than give the following an incorrect rating, we are listing them as "Value Undetermined" until a later date, when they have had more releases.

# WRITERS

## ORIGINALS — SCREENPLAYS — ADAPTATIONS — DIALOGUES

On this and the following pages are found a list of over 1,110 writers, listed alphabetically. Below their names, are found their releases for the past two years, with the per cent of business that the pictures have played to. The writers have not been listed according to the box office results of their pictures that they worked on—for the following reason: A year ago we published a list of writers which caused quite a rumpus among the two writers' organizations. Many of the writers complained that many an excellent script did poor business because it was made on a small budget without any star names, while on the other hand, other writers may have turned in a weak script, but the picture did big business because of the fact that there were a couple of big star names in that picture.

So in fairness to all, we are merely listing the writers and their credits, realizing that executives and producers can determine the value of a writer according to the per cent of business their individual pictures grossed as compared to the negative cost of that particular picture.

However, we have listed separately those writers who have had pictures that ran 100% or over during the last two-year period. Below are listed these writers, classified into four groups—Screenplays, Originals, Adaptations, and Dialogue.

### ORIGINAL WRITERS WITH PICTURES THAT RAN 100% OR OVER

1936-37		1936-37		1936-37		1936-37	
1. George Abbott	1	44. Erwin Gelsey	1	87. Norman Krasna	1.1	130. Maxwell Shane	1
